Following controls/tests have been satisfactorily performed:

- Flattening test.

- PMI-test.

- Intergranular corrosion test acc. to EN ISO3651-2, Method A.

Quality assurance - Per Eriksson / QA-manager MTC Service / Certificates

- Leak test: Eddy current test acc to SS 114301/114305 E1
- Visual inspection and dimensional control.

Heat Treatment:

Solution annealed and quenched.

The raw material is free from radioactive contamination.

Material free from mercury contamination.

The number of tests are based on the size of the manufacturing lot before cutting to finished lengths.

The delivered products comply with the specifications and requirements of the order.

The material is manufactured according to a Quality system, approved and registered to ISO 9001:2008.

The certificate is produced with EDP and valid without signature.
